

# EUROPEAN-AMERICAN EVANGELISTIC CRUSADES

February 22, 2015

Dear Friends,

I want to share the following truthful statements with you. Some of them I have coined while others I have heard over the years spoken by other people.

1. There are two kinds of people living on this earth, those who make things happen and those who watch things happen.
2. If you do not know that something exists, you will not look for it.
3. You will never get what you expect; you will only get what you inspect.
4. Without faith in God, nothing supernatural will happen in your life.
5. If you do not plan your day, someone else will.
6. If God is not on the move in your life, then Satan is.

## **WEATHER MODIFICATION**

It was in the middle of the 1980's that I began to read about the U.S. government and its attempts to control the weather. This was not a new concept since as a young man in the 1950's, I had read about "cloud seeding" in Reader's Digest, with the objective of bringing rain to areas that needed it. This was not very sophisticated since it was done with modified "crop dusters" that would fly into a cloud formation and spray small particles of silver, potassium iodide or dry ice. This turned the water moisture in the cloud into ice crystals and they would fall to the ground as water drops or snowflakes depending on the temperature.

But in the late 1980's I started receiving reports about a secret underground U.S. base located in Pine Gap, Australia. There are few surface buildings on the site and they serve as cover for the entrance shafts to this huge underground complex. It was reported that there is a shaft descending 5,000 feet with a huge antenna extending all the way to the bottom. Such a gigantic antenna could be used to generate a massive stationary electromagnetic wave around the earth. There is a nuclear power plant in the complex that can generate the necessary electricity to create these huge electromagnetic waves.

I wrote about the subject in The Dove magazine in the early 1990's, including the different HAARP installations around the world, which were being used to augment the energy waves coming from Pine Gap. In addition, there was an increase of high altitude

spraying by military aircraft and the long-lasting contrails left in the sky by high-flying aircraft became known as “chemtrails” that most people living in North America and Western Europe have seen for many years. Weather modification happens when barium or aluminum salts are sprayed into the atmosphere, dispersed by winds and ionized by the electronic magnetic waves to create an energy field that alters the jet streams and moves weather systems of rain or snow in a direction that the policy makers of weather modification desires.

The last 10 years has seen catastrophic havoc when it comes to weather modification, especially this winter as the Eastern and Southern part of the United States has been in a brutal winter grip while the west is experiencing a drought.

It has become clear to me that weather modification is indeed a reality that few people take seriously. It is time to use our spiritual weapons and come against this sinister project by a cabal of World Government leaders, whose goal is to create a food crisis that will cause starvation, resulting in the deaths of millions of people.

I am standing on the promises given in the Bible where God stated that He will not disrupt the natural order of the weather that is vital for food and water.

*“And Noah builded an altar unto the LORD; and took of every clean beast, and of every clean fowl, and offered burnt offerings on the altar.*

*And the LORD smelled a sweet savour; and the LORD said in his heart, I will not again curse the ground any more for man's sake; for the imagination of man's heart is evil from his youth; neither will I again smite any more every thing living, as I have done.*

*While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease.” (Genesis 8:20-22)*

God has set holy angels to be in charge of the weather on the earth.

*“And after these things I saw four angels standing on the four corners of the earth, holding the four winds of the earth, that the wind should not blow on the earth, nor on the sea, nor on any tree.” (Revelation 7:1)*

Please join me in this spiritual warfare project against the forces of Satan and the coming evil kingdom ruled by the Antichrist. Jesus was not a pacifist when it came to Satan and his fallen angels. The apostles were commissioned and empowered by Jesus to attack the kingdom of Satan and set people free who were bound by demons, sickness, blindness, etc. (Matthew 10:1-8; Luke 9:1; 10:1;9; 17-20)

The people working in the weather modification project are demonized and this is the reason that they are willing to destroy the climate that God has determined on earth, replacing it with destructive weather conditions which causes flooding in one location

and drought in other areas that destroys the food crop. Jesus came to destroy the works of the Devil and there is no reason why Christians should not join Jesus in this endeavor.

*“He that committeth sin is of the devil; for the devil sinneth from the beginning. For this purpose the Son of God was manifested, that he might destroy the works of the devil.” (1 John 3:8)*

## ARE CHEMTRAILS REAL?

It is important to understand that the CIA and the U.S. government have people working in disinformation departments. The majority of people do not have a criminal mind and do not know that such departments exist or that people are hired by the government to be professional liars. Let me show you an excerpt from Wikipedia to prove my point:

“Psychological operations (PSYOP) or, as it has been known since 2010, Military Information Support Operations (MISO), are planned operations to convey selected information and indicators to audiences to influence their emotions, motives, objective reasoning, and ultimately the behavior of governments, organizations, groups, and individuals.

The purpose of United States psychological operations is to induce or reinforce behavior favorable to U.S. objectives. They are an important part of the range of diplomatic, informational, military, and economic activities available to the U.S. They can be utilized during both peacetime and conflict. There are three main types: strategic, operational, and tactical. Strategic PSYOP include informational activities conducted by the U.S. government agencies outside of the military arena, though many utilize Department of Defense (DOD) assets. Operational PSYOP are conducted across the range of military operations, including during peacetime, in a defined operational area to promote the effectiveness of the joint force commander's (JFC) campaigns and strategies. Tactical PSYOP are conducted in the area assigned to a tactical commander across the range of military operations to support the tactical mission against opposing forces.

PSYOP can encourage popular discontent with the opposition's leadership and by combining persuasion with a credible threat, degrade an adversary's ability to conduct or sustain military operations. They can also disrupt, confuse, and protract the adversary's decision-making process, undermining command and control.[3] When properly employed, PSYOP have the potential to save the lives of friendly or enemy forces by reducing the adversary's will to fight. By lowering the adversary's morale and then its efficiency, PSYOP can also discourage aggressive actions by creating disaffection within their ranks, ultimately leading to surrender.

The integrated employment of the core capabilities of electronic warfare, computer network operations, psychological operations, military deception, and operations security, in concert with specified supporting and related capabilities, to influence,

disrupt, corrupt or usurp adversarial human and automated decision making while protecting our own.”<sup>1</sup>

Wikipedia has provided the CIA with a forum to write and debunk weather modification as well as discredit any person who tries to tell the truth about secret dealings of governmental agencies. Facebook, Twitter and other social media platforms are also used by many nations to spread disinformation and debunk truth that is harmful.

How can the American public be so misled when it comes to weather modification? You have only to look up at the sky and see the crisscrossing strips of sprayed chemicals, expanding in width and covering a wide expanse of the sky above people's heads. Contrails are caused by high flying aircraft but dissipate shortly thereafter while the chemtrails stay in the air for hours and drift with the winds.

### PROOF OF MORE DISINFORMATION

Susan Lindauer worked as an asset for the CIA. When she found out that the U.S. government wanted to go to war with Iraq, she tried to put a stop to it by talking to members of Congress. She was subsequently arrested and held for years in a federal prison without a trial. She wrote about her experience in a self-published book, “Extreme Prejudice: The Terrifying Story of the Patriot Act and the Cover Ups of 9/11 and Iraq.”

Sibel Edmonds worked for the FBI as a translator, and when she attempted to alert her superiors that there were spies from foreign nations working as moles in the FBI section where she worked, she was arrested and incarcerated without any trial. She too wrote about her ordeal in a book entitled, “Classified Woman: The Sibel Edmonds Story.”

Both women eventually were set free but their lives were hijacked and ruined. They were smeared on the internet by the CIA and FBI. Each wrote a book but no major publishing house dared to publish their disclosures. Their books have exposed just how far the U.S. government will go to prevent disclosure of its dishonesty.

Just because something is written, does not make it true. The irony of that statement is not lost on me as I sit in front of a computer and record my thoughts. All things have to be verified in these days of professional liars, who make use of the internet, newspapers, television, movies and social media to twist the truth.

Yours in Christ,

John S. Torell
