THE WORLD'S MONEY SYSTEM

RLJ-1272

PART 4: THE KABBALAH

The Devil must have military, political and monetary control to achieve his goal of controlling the whole world and only then can he accomplish what Jesus predicted. **Revelation 13:16-18**

Satan needs the following to gain control over the world:

- ❖ **GLOBAL TRADE**
- ❖ **GLOBAL CURRENCY**
- ❖ **GLOBAL LANGUAGE**
- ❖ **GLOBAL RELIGION**
- ❖ **WORLD GOVERNMENT**

LONG TERM PLANNING AND DEVELOPMENT

This is what the Bible predicts; therefore, all Christians should take heed and ask some pertinent questions such as:

- ❖ How are these events going to come into being?
- ❖ When is it going to happen?
- ❖ Can the development of this coming world system be spotted before it is fully here?

Today, it is impossible for any nation to mobilize its armed forces without the rest of the world knowing of it in advance. Satellites crisscross the sky over the earth and any movement is picked up on satellite photos. The same holds true for the future Antichrist system. It will take time to build the system, but as it is being built, it will be impossible to hide from those who are seeking the truth. Let's look at the following specific signs which will tell us exactly what is going to happen:

1. A world dictator must have a loyal following who will believe in him as a person and the mission he presents to them. These followers will not be located in just one place but will be present in all nations of the earth. They cannot be loyal to the national government where they live but will be loyal to the international cause for which the world dictator stands.
2. The dictator's followers cannot be poor or unskilled. Poor people do not influence governments; instead, it is the well-educated and well-to-do people will hold positions that will enable them to be part of the government process and set policies.

3. These loyal followers must be unified under the same religious persuasion which will galvanize efforts to enforce their rule and belief system upon the rest of the people in the world.
4. These followers will be molded into an international force that will despise national governments except for their own. They will control all communication systems so that the information released will fit their agenda. As a result, they will control the news media (radio, television and the printed word from newspapers, magazine and books). The entertainment industry will also be included because it is the largest educational system in the world.
5. All medical and scientific research will be under their control, including industrial research, so that nothing will be developed that is not beneficial to their system. This means that all private and public education will be controlled by the loyal followers of the world dictator.
6. All banking, stock market exchanges, bond markets and the setting of worldwide interest rates will be under their control.
7. The loyal followers will become so powerful that any politician, businessman, educator or industrial owner that doesn't submit to the program of the world dictator will be destroyed immediately. Since they won't take control with military power, they must develop a chokehold on each nation that cannot be broken, and leaders who do not submit will be politically annihilated, bankrupted or killed through fake suicides.
8. They will create a number of secret brotherhoods whose members will be made up of those who are not loyal followers but can be controlled through these secret organizations.

HOW FAR HAS THE WORLD DICTATOR SYSTEM DEVELOPED?

I have outlined eight basic points and there are more which could be added. Here is the bad news; ALL EIGHT POINTS ARE IN PLACE TODAY! Once this is realized, logic should dictate that we are dangerous to the loyal followers of the Antichrist because the system is working in the dark and trying to take over the world through stealth, and truth and light are deadly to them. Therefore, the closer we come to the final takeover by the Antichrist system, the more persecution will be heaped upon anyone opposing the system. The Bible tells us that once the system is put into place; it will impose a death sentence on anyone opposing it. We are almost there!

WHO IS THE HOLY SERPENT?

Last week (RLJ-1271) I discussed the Holy Serpent and in this message we are going to take a more detailed look.

"In the teachings of the Kabbalah, their god is introduced as having two aspects or countenances (partzufim), one male and one female, the latter being known as the Shekhinah. This god is referred to as "the First Cause," which was worshipped by Pharaoh, Nimrod and the wise men of

India alike; is not the concern of religion at all for it has nothing to do with the affairs of this world or its creation and exerts no influence on it for good or for bad.”¹

Professor Scholem further wrote:

“Another who found the passage to ‘Esau’ was the sorcerer Balaam. ‘Esau’ belongs to the realm of the good God where the power of death has made naught, and it is also the dwelling place of ‘the Virgin,’ she who is called Rachel in the biblical stories about Jacob and is elsewhere known as ‘the beautiful maiden who has no eyes.’ She it is who is the real Messiah (who cannot, contrary to traditional opinion, be a man) and to her ‘all the king’s weapons are surrendered’ for she is also the much sought-after ‘Divine Wisdom’ or Sophia who is destined to take ‘Death’s’ place as one of the three ‘Rulers of the World.’ For the present, however, she is hidden in a castle and kept from the sight of all living creatures;... Again, she is the ‘holy serpent’ who guards the garden, and he who asked what the serpent was doing in Paradise was simply betraying his ignorance.”²

THE JEWISH MESSIAH, SABBATAI SEVI

Sabbatai Sevi was born to a Jewish family in 1626 in the city of Smyrna located in what is modern day Turkey. His father was a prominent businessman in the Turkish Empire and quite wealthy. Sabbatai was trained in business and studied to become a rabbi. During his studies under some master rabbis, he became a scholar of the Talmud and the Jewish culture but was also caught up in Kabbalistic teaching, which at that time had grown very strong, and eventually became the leader in the messianic movement of the Kabbalistic system. We have already learned the number “666” is a holy number in the Kabbalah, and it was the number/name used to identify King Solomon. When Sabbatai started to preach that he was the incarnated messiah, he told his

followers that he would reveal himself to the world in 1666, assume his role as “the messiah of the world” and would rule out of Jerusalem. When Sabbatai made his proclamation in 1666, he was arrested by the Turkish government and given the choice to convert to Islam or be executed. He chose the Muslim faith.

Sabbatai met another Jewish rabbi by the name of Nathan Gaza, who eventually became known as the prophet of Sabbatai. He helped Sabbatai further develop the teachings of the Kabbalah and wrote them down to fit the life of Sabbatai. It was from Nathan that we learned

more of the secret doctrine of the Kabbalah that had been handed down for centuries since the days of King Solomon. Scholem writes:

*“...According to Nathan, there exists a certain relationship between the Messiah and the course of all those intrinsic processes of which I have spoken in the last lecture: Tsimtsum, Shevirah and Tikkun. In the beginning of the cosmic process, En-Sof withdrew His light into Himself, and there arose that primal space in the center of En-Sof in which all the worlds take birth...”*³

“Tsimtsum” is a Hebrew word that originally means concentration or contraction but in the Kabbalah it means withdrawal or retreat. The Kabbalah teaches that God withdrew himself into himself and created an empty space where he could reveal himself as the Creator. “Shevirah Ha-Kelim” is another Hebrew expression which refers to breaking of a vessel. “En-Sof” is also Hebrew and means the infinite being. “Tikkun” in Hebrew means mending or restitution. Kabbalahists believe that God will break himself as a vessel in due time by coming forth as the Messiah and restoring all things to himself again by closing the empty space which he had created.

Scholem continues in his book:

*“...This primal space is full of formless, hyllic forces, the Kelipoth. The process of the world consists in giving shape to these formless forces, in making something out of them. As long as this has not been done, the primal space, and in particular its lower part, is the stronghold of darkness and evil. It is the ‘depth of the great abyss’ in which the demonic powers have their abode. When following the Breaking of the Vessels, some sparks of the divine light, radiating from En-Sof in order to create forms and shapes in the primal space, fell into the abyss, **there also fell the soul of the Messiah which was embedded in that original divine light. Since the beginning of Creation, this soul had dwelt in the depth of the great abyss, held in prison of the Kelipoth, the realm of darkness.** Together with this most holy soul at the bottom of the abyss there dwell the ‘serpents’ which torment and try to seduce it.*

***To these ‘serpents’ the ‘holy serpent’ is given over which is the Messiah...** Only in the measure in which the process of the Tikkun of all the world brings about the selection of good and evil in the depth of the primal space, is the soul of the Messiah freed of its bondage. When the process of perfection, on which this soul is at work in its ‘prison’ and for which it struggles with the ‘serpents’ or ‘dragons,’ is completed—which however, will not be the case before the end of the Tikkun generally—the soul of the Messiah will leave its prison and reveal itself to the world in any earthly incarnation...”*⁴

REDEMPTION ACCORDING TO THE KABBALAH

Kabbalistic thinkers believe that if God wants to move from point A to point C, but gets stuck on point B, he will either have to free himself from B or someone else must help him. According to the Kabbalist, God is in confusion, where he consists of one male being and one female being. Compare this with the yin and yang teaching in the Chinese religion of Taoism: Yang is the positive force of good, light, life, and masculinity while Yin is the negative essence of evil, death, and femininity.

En-Sof is the male part of God which withdraws himself into himself and creates a vacuum in his own structure which they call the “Kelipoth” or the “abyss.” The female part of God falls into this “hole” (Kelipoth) and takes the form of “the Holy Serpent.” Surrounded by evil spirits, she is tempted at all times, but at the same time tries to set herself free to climb out from the hole and establish herself as “the messiah” on the earth. Earth is part of the creation, and the creation is suspended in the vacuum, which God has created. Meanwhile, En-Sof has created human beings on the earth who are capable of setting the holy serpent free and bringing her up on the earth, but only those who are trained in the secrets of the Kabbalah can be of help. The Kabbalists have two ways to achieve this goal:

- 1) To destroy all evil on the earth and make it totally good.
- 2) To destroy all good on the earth and make it totally evil.

It is harder to make everything good and so the second road was chosen to destroy all goodness on the earth and supported this by referencing two verses from the Bible:

“It is time for thee, LORD, to work: for they have made void thy law.”
Psalms 119:126

“For the LORD shall rise up as in mount Perazim, he shall be wroth as in the valley of Gibeon, that he may do his work, his strange work; and bring to pass his act, his strange act.” **Isaiah 28:21**

It was Jacob Frank (1726-1791) a Jewish rabbi and the leader of Kabbalistic movement, first in Poland and later in Germany, who developed this theology into its modern shape. Here is a summary of the five points:

1. *The belief in the necessary apostasy of the Messiah and the sacramental nature of the descent into the realm of the Kelipoth.*
2. *The belief that the “believer” must not appear to be as he really is.*
3. *The belief that the Torah (the Five Books of Moses) of atzilut (emanation or coming forth) must be observed through the violation of the Torah of beriah (story of creation). [According to the Kabbalistic thinking as taught by those that follow the school of Safed, (a small city on the lake shore of Galilee) they believe there are two interpretations to the Five Books of Moses. The first one is the “atzilut” (supernal, divine, celestial) and the second is the “beriah” (creation itself), which is on a lower level.]*

4. *The belief that the First Cause and the God of Israel are not the same--the former being the God of rational philosophy--the latter the God of religion.*
5. *The belief in three hypostases (substance, essence) of the Godhead (believing that the Godhead consists of three beings, Trinity), all of which have been or will be incarnated in human form.*⁵

WHAT IT MEANS IN PRACTICAL TERMS

Kabbalists believe the future Messiah will not live a sinless life on this earth but will live out the most possible sinful life and degrade himself into apostasy. This teaching is in total violation of what the Old and New Testaments teach concerning the Messiah and his characteristics. Jesus of Nazareth was the opposite to the messiah of the Kabbalah. He was born of a virgin, who was impregnated by the Holy Spirit, had divine sinless blood in his veins, lived a sinless life on this earth and died on Calvary to pay for the sins of all people. He did not die on the cross to bring a "serpent out from the bottomless abyss." Jesus arose on the third day from the grave and is now seated at the right hand of the Father in heaven.

Kabbalistic believers will never confess they are a follower of the Kabbalah; instead, they will make lying a "refuge." After the teachings of Jacob Frank, many Jews publicly converted to the religion of the land in which they lived. It became very popular for Polish and Italian Jews to openly convert to the Roman Catholic faith and thousands of Jews living in other Catholic nations followed along. In Russia they converted to the Russian Orthodox Church, in Northern Germany they became Protestants (the father of Karl Marx was the most well known), and in the Muslim nations they converted to Islam. They served God by lying and sinning as long as they confessed their apostasy on their death bed and reverted back to Judaism.

Only by breaking the law of God can a Kabbalistic Jew serve God and be given eternal life in the future to come. Therefore, they go to great lengths to sin and lead as many others into sin as well. This can also be seen in the Talmud where incest, fornication, adultery, etc. are promoted as virtue and something to be desired. Any student who is serious about finding the truth will realize that the worst degradation came to the exiled Jewish community in Babylon. Most of the people in Jerusalem were taken captive in 604 B.C. and taken to Babylon and the majority decided not to return to the land of Canaan when Ezra tried to lead them out after 70 years in bondage. The Jewish colony there grew very large and their number exceeded one million by the time of Christ. They controlled much of that region up to around 1600 A.D. when the Muslims drove many of them out and forced them into Russia, Europe and North Africa. The atrocities and abominations practiced by these Jews were very similar to the ones of King Solomon.

CREDENTIALS FOR THE KABBALISTIC MESSIAH

This is significant information in learning what the current world Jewish leadership believes when it comes to their messiah because this is the standard that the antichrist will fulfill.

- 1) The Jews will only recognize a man as their messiah if he restores national sovereignty of the Jewish people in the land of Israel and gathers together all the exiles.
- 2) This messiah will set up God's universal kingdom of justice and peace on earth.

What Novak said in this statement is the goal of Judaism for this entire world. **They are establishing Israel and working on a plan that will bring all nations in subjection to a ruler out of Jerusalem who will become a theocratic world dictator.** There won't be any room for Jesus and His church in this kingdom of the Jews.

No political movement can exist unless it first given a religious or theological cause! This is a statement with which few are acquainted and therefore they do not understand world history with its political developments. A hidden fire had burned for centuries in the hearts of Jewish leaders that the messianic teachings of the Kabbalah will one day engulf the whole world. But Jerusalem and the rest of Palestine must be controlled by the twelve tribes of Israel before that can happen.

SUMMARY OF THE SABBATAI MESSIANIC MOVEMENT

Sabbatai as the messiah of the Jewish people had by now been established in all Jewish settlements around the world, including Boston in North America. This knowledge was hidden in the Jewish communities in Saudi Arabia, Babylon (Iraq), Persia (Iran), Palestine, Turkey, Egypt, North Africa, Yemen, Greece, the Balkan nations, Italy, Spain, France, Holland, England, Germany, Austria, Poland, Lithuania, Russia etc.

Followers of Sabbatai were sworn to secrecy, taking an oath of death that they would never reveal the truth of who they were or what they believed. Many of them had committed apostasy, and converted to whatever religion was dominant in the nation where they lived. Thus they became hidden Jews, who would take Gentile names and publicly live like Gentiles, but secretly were followers of the Kabbalah and of Sabbatai. The ones who had committed apostasy were able to advance quickly into government positions in a number of nations and became leading families for the next three hundred years. They were the ones who would set the policies for the nations.

By being an international Sabbatai organization with a very strong top governing body, this Antichrist system now had enough power to take on its rival, the Roman Catholic Church. Islam was basically confined to the Middle East and had very little military or economical power and the Vatican was the only global force standing in its way.

The Jewish people controlled most of the international trade at the time of Sabbatai's death and this benefited the movement greatly. Any king of a nation who opposed the Antichrist system could easily be destroyed economically, plus nations could be rallied to wage war against anyone who opposed them.

The leadership in the Sabbataian movement realized the reason for the failure of Sabbatai to become the king of Israel was that there was no central leadership who could dominate the Jewish communities into one mold. Also, they did not have the military might needed to pressure the Sultan into submission.

CONCLUSION

The Kabbalistic Jews realized that in order to take over the world, they needed to establish Jerusalem as its capitol with a messiah who would rule as a king of Israel and relegate all Gentiles as slaves, but first they needed to build a strong power base to gain control of the world's resources, especially trade and finances, so that no nation or individual could resist them.

Mayer Amschel Rothschild spoke the truth more than a hundred years later when he said, "Give me control of a nation's money and I care not who makes its laws."

The man who would pick up the Sabbataian movement and take on the road eventual world dominion was Jacob Frank (1726-1791). When he came upon the scene, he claimed he was Sabbatai Sevi, who had been reincarnated and sent back to the earth but in a different body and a new century.

"When the righteous are in authority, the people rejoice: but when the wicked beareth rule, the people mourn." **Proverbs 29:2**

Sabbatai, Nathan and their followers are in hell or are waiting to die and go to hell. They will all be resurrected judged at the Great White Throne Judgment and then cast into the Lake of Fire where they will be tormented forever and ever.
Revelation 20:10-15
